

The Central States Section of the Combustion Institute

Art Competition

At 2010 Spring Technical Meeting
University of Illinois- Urbana-Champaign, March 21-23, 2010

CASH PRIZES will be awarded for first place (\$300), second place (\$200), and third place (\$100).

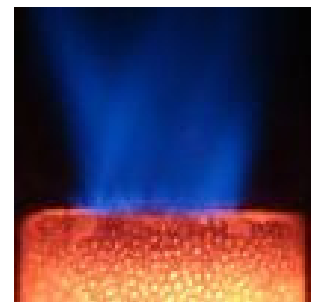

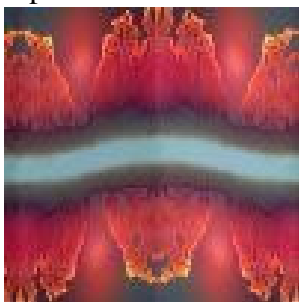

Eligible entries include (but are not limited to): images (photographs or computer-generated), paintings, drawings, sketches, sculpture, etc. of combustion or combustion-related phenomena. Rearrangement, assembly, or modification of combustion images into an art-form is appropriate and encouraged. Some examples of such works are shown below. Submission indicates your permission for your artwork to be displayed on the CSS website.

Electronically submit a high resolution image of your entry with a brief explanation to Ajay Agrawal (aagrawal@eng.ua.edu) by **March 12, 2010.**

You must prepare your artwork for display during the meeting. Note that the quality of printing, framing, and displaying can significantly enhance the visual appearance and appeal of your artwork. Thus, consider use of border, frames, 3D effects, or other suitable format to create a professional display, similar to what one would see in an art gallery. Both the artwork and display quality will be considered during the judging process.

You are expected to set up your display at the meeting site by 8:00 AM on Monday, March 22 and remove it at the end of the day. Please make the necessary arrangements to set up your display if you are unable to attend the meeting or your arrival/departure times are in conflict. We will provide easels, white foam board, double sided tape, etc. Contact Ajay Agrawal if you have special display needs.

The judging will occur during 9 AM - 5 PM on Monday, March 22. We plan to announce the winners before the plenary session on Tuesday, March 23. We thank you for your contributions and look forward to a very successful event. We look forward to seeing your combustion art work! Best of luck in the competition!
